

STA4550P Ka Series 500W Ultralinear Ka-Band Antenna Mount HPA

FEATURES

Ultralinear Lightweight High Efficiency Broadband

STA4550P Ka series 500W Antenna Mount HPA

The STA4550P Ka series HPA provides ultra linear, high efficiency performance in a compact, lightweight, rugged, weatherproof, antenna mount enclosure. The advanced packaging and cooling techniques enable the unit to operate in extreme environmental conditions from direct rain to direct sunlight. The amplifiers can be simply deployed anywhere in the world, are user-friendly and incorporate a comprehensive remote control facility as standard, including RS485, RS232 and Ethernet options.

The HPA incorporates a high efficiency multi-collector TWT powered by an advanced power supply built on over 30 years of experience in the design and manufacture of satellite amplifiers.

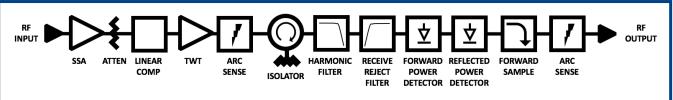

The company's products have an enviable reputation for performance, robust quality and reliable service.

The STA4550P Ka is available with a wide range of options and accessories, backed by worldwide technical support.

Features

- Advanced cooling design enables operation at +60°C and in direct sunlight
- Weatherproof antenna mount construction allows exposed mounting
- Ethernet/SMP/Webpage GUI interfaces
- Broadband high efficiency operation

- CE complaint
- Wide input voltage range can operate from mains supplies worldwide
- Redundant control contains control and drive circuits for 1:1 redundancy
- Stand-alone setting automatically sequences to transmit mode
- Wide range of accessories including: Controllers, waveguide networks, cable assemblies

RF Performance:

Prime Power:

AC Input Voltage	200-240 VAC \pm 10%, single phase 50-60 Hz \pm 5%
Full Load Current	6.8 A max @ 200 VAC
Power Consumption	1050 VA typical 1350 VA maximum
Power Factor	0.98 typical 0.96 minimum

Environmental:

Ambient Temperature Relative Humidity	-40°C to +60°C 100% condensing
Altitude	12,000 ft. with standard adiabatic derating of 2°C/1000 ft., operating
	50,000 ft., non-operating
Shock	15 g peak, 11mSec, 1/2 sine
Vibration	3.2 g rms, 10-500 Hz
Acoustic Noise	65 dBA @ ≥3 ft. from amplifier
Solar Gain	1120 2/m ²

Mechanical:
